Kellerman, second statement, 11/30/63, 2 pp

Subject is three lines long, the security measures from Love Field to Bethesda, then to White House.

I also mentions the shift reorganizations, the LBJ security, the trip to the Navy hosp.

This says the four agents also remained through the mob lming.

This one also fails to mention Burkley'd departure. It is spseific in not placing him ~~in~~ in the embulance.

What is not clear is why it had to be written at all.
